

Cyber-Insurance IT Readiness Review

Strengthen your cybersecurity defense with a cyber-insurance assessment & policy review

Every organization must have a robust cyber-insurance policy to mitigate potential financial losses and protect its business from the risks associated with data breaches, ransomware attacks, and other malicious activities. We will help you navigate the complex world of cybersecurity from every angle and safeguard your digital landscape from cyber threats with our **free Cyber-Insurance IT Readiness Review**.

Synergy Technical will review your organization's current IT environment and identify any potential technology gaps or vulnerabilities that may leave your business exposed to cyber risks as well as help you build a roadmap to success and stay compliant with your current cyber-insurance policy.

The IT Readiness Review includes:

- **IT Environment Evaluation**
 - Review your existing IT environment to ensure appropriate cyber-insurance policy requirements are in place
- **Identify Potential Gaps**
 - Identify any gaps in coverage, potential threats and vulnerabilities
- **Roadmap to Success**
 - Deliver a summary of our findings and work with your team to mitigate cyber risks and secure your environment

Assessment outcome

Our team of highly-experienced consultants will analyze your current cyber-insurance policies and create a tailored roadmap that addresses your unique business needs, helping you put the right coverage in place, reducing premium costs and organization liability, all while enhancing cybersecurity.
